Part print

Categories: Applications Screws, EBS Screws, Our Products, Screws for multi-material applications or sheet metal without pre hole

Product Short Description :

Our « EBS screws family » has been designed to quickly, securely and durably assemble different materials together such as: carbon-fiber composites, steel, aluminum, plastics, etc.

This range of flow-tapping screws has advantageous technical characteristics, such as the creation of a tapped barrel without residual shavings, the possibility to assemble additional components in different materials without pre-drilling etc.

Our EBS screws also allow the attachment of optional accessories and trim directly onto the body-in-white (for example the bumper, the window frame, the B-Pillar, etc.) without a pre-punched hole.

Additional Information:

- Dimensions: N/A
- Weight: N/A
- Drive: Hexagon
- Ø Final [A] (mm): 3.5
- Final length [B] (mm): 18
- Ø Head [C] (mm): 12
- Head Height [D] (mm): 3.55
- Headshape: Hexagon flange
- ISO: /
- Material: 8.8 Induction hardened
- Point: EBS-point
- Property class: 8.8 induction hardened
- Surface treatment screw: CC0PFK703K
- Thread: Metric Thread
- Washer: No washer
