Categories: Anti-creep shoulder screws, Our Products, Shoulder screws, Tailormade Parts

Product Short Description :

————————————————————————————————

Our « Anti Creep shoulder screws » family has been designed to reinforce clearance holes in plastics to provide a metal to metal contact allowing the application of clamping forces and limit the compression to avoid over-stressing of the plastic.

This family includes a complete range of various products : in steel 10.9, steel 8.8, aluminum and EGH, etc.

In addition to allowing a durable and safe assembly, our anti-creep shoulder screws solutions have advantageous characteristics such as the stability of the preload under flexible assembly conditions, the speed of assembly thanks to the pre-assembly system, etc.

————————————————————————————————

Additional Information:

- Dimensions: N/A
- Weight: N/A
- Material: Steel 10.9
- Drive: internal hexalobular
- Head Height [A] (mm): 5.4
- Ø Head [B] (mm): 16
- Shoulder Height [C] (mm): 8,5-8,7

- Ø Shoulder [D] (mm): 10,0-10,1
- Ø Thread [E]: M7
- Final length [F] (mm): 20.5
