Product Short Description :

Our « Anti Creep device to slide on a panel » family has been designed to reinforce clearance holes in plastics to provide a metal to metal contact allowing the application of clamping forces and limit the compression to avoid over-stressing of the plastic .

In addition to allowing a durable and safe assembly, our « anti-creep rings to assemble » solutions have advantageous characteristics such as the ability to be used on different panel thicknesses, on different hole diameters, etc.

Additional Information:

- Dimensions: N/A
- Weight: N/A
- Height with collar [D] (mm): 3.9
- Ø Hole [A] (mm): 21,4 * 14
- Panel thickness (mm): 2

- Ring thickness [E] (mm): 0.7
- Thread: /
