**Categories:** Innovative products

## **Product Short Description :**

-----

Our « anti-creep rings to assemble » family has been designed to reinforce clearance holes in plastics to provide a metal to metal contact allowing the application of clamping forces and limit the compression to avoid over-stressing of the plastic.

This family includes different forms such as round and square products.

In addition to allowing a durable and safe assembly, our « anti-creep rings to assemble » solutions have advantageous characteristics such as the ability to be used on different panel thicknesses, on different hole diameters, etc.

-----

## **Additional Information:**

- Dimensions: N/A
- Weight: N/A
- Ø Collar [B] (mm): 21.2
- Form: Round
- Height with collar [D] (mm): 5
- Height without collar [C] (mm): 4
- Ø Hole [A] (mm): 16.4

- Ring thickness [E] (mm): 1.1
