

935099

Our « Sheet metal screws with pre hole » family has been designed to ensure secure fastening over time for all automotive assembly challenges.

This family includes a complete range of products: in 10.9 and 8.8 steels, aluminum and EGH, etc.

Economical and reliable, alone or in combination with our other products, our sheet metal screws with pre hole guarantee an optimal fastening system.

937606

Our « EBS screws family » has been designed to quickly, securely and durably assemble different materials together such as: carbon-fiber composites, steel, aluminum, plastics, etc.

This range of flow-tapping screws has advantageous technical characteristics, such as the creation of a tapped barrel without residual shavings, the possibility to assemble additional components in different materials without pre-drilling etc.

Our EBS screws also allow the attachment of optional accessories and trim directly onto the body-in-white (for example the bumper, the window frame, the B-Pillar, etc.) without a

pre-punched hole.
